# Cold In-place Recycling Climate Initiative Technical Outreach Workshop

U.S. Department  
of Transportation  
**Federal Highway  
Administration**

## *What is the Cold In-place Recycling Climate Initiative?*

The Metropolitan Transportation Commission Climate Initiative encourages proven pavement preservation technologies to battle global warming. Cold In-place Recycling (CIR) is a socially responsible and eco-friendly method of safeguarding the earth's resources and advancing a "green" environment. It cost-effectively improves pavement conditions for increased motorist satisfaction and substantially reduces greenhouse gas emissions over traditional construction and rehabilitation methods.

## *What is discussed in the Technical Outreach Workshop?*

The workshop is an excellent opportunity for Bay Area local road agencies to learn technical details about the Cold In-place Recycling process from national experts. The workshop will cover the following topics:

- \* Addressing the Funding Needs of Local Agencies
- \* Project Selection Criteria for Cold In-Place Recycling
- \* Mix & Thickness Design for CIR Projects
- \* Construction of a CIR Project
- \* Inspection Procedures and Review of CIR Specification
- \* Agency Experiences and Lessons Learned

## *When and where will the outreach program be held?*

The Technical Outreach Workshop will be held on Wednesday, January 18, 2012 with registration beginning at 8:30 a.m. and the program starting at 9:00 a.m. at the MTC Auditorium at the Metropolitan Transportation Commission, 101 Eighth Street, Oakland, California. The workshop will conclude at 4:00 p.m.

## *Who Should Attend?*

The workshop is specifically designed for Public Works Directors, Engineers, and key technical staff involved with implementing maintenance strategies.

## *How do I Register for the In-Place Recycling Workshop?*

Please register by contacting Marlene Demery at [mdemery@cityofnapa.org](mailto:mdemery@cityofnapa.org) or by telephone to the Public Works Department in Napa at (707) 257-9520. All registrations include refreshments and a lunch.
